PRODUCT SPECIFICATIONS MP-5343-1S-2M

Organised for Everyday Care
The MP-5343-1S-2M keeps clinical instruments and supplies close at hand. One small and two medium drawers, plus a lower shelf, provide practical storage in a 530 × 430 mm footprint. Made in New Zealand with an anodised aluminium frame and drawers, full-width PureGrip® handles and a 5-year renewable warranty. Configure colours, dividers and optional accessories to suit your workflow.

100 mm braked castors	2
100 mm non-braked castors	2
Wall buffers	4

FEATURES & BENEFITS

Date: November 2026

EASY GLIDE RUNNERS

Full extension steel drawer runners with a total drawer weight rating of 45kgs (including the drawer). Guided by 2 ball cages for easy glide operation. The drawer can be easily detached from the central runner rail. Limited lifetime warranty.

EASY CLEANING

Our products are easy to clean with no absorbent surfaces exposed.

ALUMINIUM DRAWERS & FRAME

Through the use of our break-through anodised aluminium design for drawers and frames, we protect against corrosion and scratching while providing a highly durable surface which is recyclable. Unlike many other products, aluminium can be recycled indefinitely due to its high intrinsic value.

CABINET CONSTRUCTION

Cabinets are made from low-pressure melamine. Tops and shelves use durable phenolic compact laminate: easy to clean and resistant to scratches, stains, moisture, mould and everyday impacts.

DESIGN QUALITY

Tasman Trolleys are designed and built using quality materials. We use ethically sourced aluminium.

Optional Accessories

Coloured drawer fronts & cabinet sides

Hand sanitiser

Drawer dividers

5-year renewable warranty

Parts and labour	5 years
